

JAN ALEXANDER TOLENTINO

Unity Developer • Technical Artist • Digital Marketing Designer

Email: dev.jan.tolentino@gmail.com | Philippines

CAREER OBJECTIVE

Creative and detail-oriented designer with hands-on freelance experience producing marketing visuals in Canva, and a strong background in Adobe Creative Suite and AI-powered creative tools. Experienced working directly with international (US-based) clients on social media content, content calendars, and lead-generation assets, complemented by a design foundation from 3D environment art. Seeking to bring a collaborative, deadline-driven approach to a fully remote Digital Marketing Designer role supporting EDM campaigns and digital marketing initiatives for an Australian-based team.

WORK EXPERIENCE

Freelance Virtual Marketing Assistant

May 2025 – Present

Remote — US-Based Clients

- Designed social media graphics, branding assets, websites, and marketing creatives.
- Created lead magnets, consultation funnels, booking systems, and business websites.
- Managed client inboxes and coordinated communications.
- Planned content calendars and maintained consistent brand identity.
- Integrated AI tools (ChatGPT, Claude, Gemini, Leonardo AI, Midjourney) into creative workflows.

Game Environment Composer / Artist / Coder

July 2023 – March 2025

Holysoft Studios Philippines Inc.

Bacolod City

- Developed and optimized Unity game environments for commercial projects.
- Created environmental VFX including fog, god rays, wind, and weather effects.
- Collaborated with programmers, artists, and designers using HacknPlan.
- Refined environments through QA feedback and production iteration.

Programmer / Game Environment Composer (Internship)

January 2023 – May 2023

Holysoft Studios Philippines Inc.

Bacolod City

- Assembled Unity environments to match the game's visual style and created particle VFX (fog, wind trails, raindrops).
- Integrated 3D assets into the game world in collaboration with asset creators.
